

WHY WE PLANT TREES

"I love trees! I love trees because of their pretty leaves, because they're like umbrellas, because they make a special syrup, and because you can hang a hammock from them."

—Phoebe, new Friends of Trees member and volunteer

"We plant trees because of Phoebe! It took seeing the world through her eyes to remember the wonder of trees and the delight in watching something that you planted grow."

—Allie and Jeanette, Phoebe's mother and grandmother

We are Friends of Trees. We plant trees in the Portland-Vancouver metro area to improve our air quality and keep stormwater from polluting our rivers. Our thousands of volunteers have planted hundreds of thousands of trees, growing Portland's urban canopy while other U.S. cities have seen theirs reduced.

When five-year-old Phoebe donated her allowance this October and planted trees with us, she inspired matching donations from her mother and grandmother. She continues to inspire others to donate and volunteer.

Follow Phoebe's lead. Become a member at FriendsOfTrees.org/Member
