

We did it!

2020 IMPACT REPORT

51,289 Trees and Native Shrubs Planted

That makes **850,000+** Native Trees and Shrubs Planted since 1989!

6,452 Volunteers Donated

32,349 Hours of their time!

29% of our Volunteers are Youth!

OUR REGIONAL APPROACH:

2 STATES

6 COUNTIES

20 CITIES

104 EVENTS

Friends of Trees inspires people to improve the natural world around them through a simple solution:

PLANTING TREES. TOGETHER.

[FRIENDSOFTREES.ORG](https://friendsoftrees.org)

Look What TREES Can Do!

Two average sized trees produce enough oxygen in one year to keep a family of four breathing!

By absorbing stormwater pollutants, trees help keep rivers and streams clean. Stormwater absorption also helps prevent flooding!

Treelax! Just 5 minutes of viewing trees can reduce stress.

Trees fight climate change by absorbing carbon dioxide, storing the carbon, and emitting pure oxygen.

People of color and low-income communities are more likely to live in areas without sufficient tree cover and green spaces, making them more susceptible to illnesses like asthma.

Every \$1 spent on creating green spaces, especially in low-income areas, can save almost \$3 in health care alone.

The more people volunteer the happier they are!

In a year, an acre of mature trees absorbs the same amount of CO₂ produced when you drive your car 26,000 miles!
