

Trees for you.

FRIENDS *of* TREES

will plant a grove of young native trees in memory of

A special gift from

You are the recipient of a Gift Tree Grove from Friends of Trees

Are you sending me a grove of trees?

No, but this keepsake card is a reminder of this special gift.

Where do the trees get planted?

Friends of Trees' Green Space Program restores natural areas throughout our region, from Troutdale to Hillsboro, Oregon. All Gift Trees are planted in these areas and they play a vital role in our work restoring sensitive natural areas that are key for habitat, clean air, and watershed health.

What is Friends of Trees?

Friends of Trees is a nonprofit organization that inspires people to improve the natural world around them through a simple solution: Planting trees. Together.
