

WE DID IT!

2021 IMPACT REPORT

21,311 TREES & NATIVE SHRUBS PLANTED

... that makes 870,000 since 1989!

930 VOLUNTEERS DONATED

10,400 HOURS!

15% of our volunteers are youth!

2,500 STREET TREES PRUNED

73 TREE PLANTINGS & TREE-CARE EVENTS

with 20+ partners across 18 cities, including 27 green spaces, 25 neighborhood tree plantings and 11 events in Eugene.

Our 32nd season of planting trees + growing community was like no other. The COVID-19 pandemic brought unprecedented challenges, yet Friends of Trees' staff and volunteers rose to the occasion, planting and caring for trees and native shrubs with the passion, commitment and good humor that make community tree-planting so special.

Look What TREES Can Do!

TWO AVERAGE-SIZED TREES
produce enough oxygen in
one year to keep a family
of four breathing!

BY ABSORBING STORMWATER
and pollutants, trees help
keep rivers and streams
clean. Stormwater absorption
also helps prevent flooding!

TREELAX! Just 5 minutes
of viewing trees can
REDUCE STRESS.

TREES FIGHT CLIMATE CHANGE
by absorbing carbon dioxide,
storing the carbon, and
emitting pure oxygen.

PEOPLE OF COLOR AND LOW-INCOME
communities are more likely to live in
areas without sufficient tree cover and
green spaces, making them more
susceptible to illnesses
like asthma.

THE MORE PEOPLE
volunteer, the
healthier and
happier they are!

EVERY \$1 SPENT
creating green
spaces, especially in
low-income areas,
can save almost \$3 in
health care alone.

IN A YEAR, AN ACRE
of mature trees absorbs
the same amount of CO₂
produced when you drive
your car 26,000 miles!
